VERY FUNCTIONAL

**NOT ONLY ARE ARTISTIC PAVERS BEAUTIFUL TO
LOOK AT, THEY ARE VERY FUNCTIONAL...**

♦ **We won't crack you up,
but we do make good pavers ...**

Regular poured concrete decks crack, Artistic Pavers flex between pavers avoiding cracks.

♦ **We are cool...**

Cool on your feet. Most of our pavers are light colored and typically much cooler than most other deck surfaces.

♦ **Smooth, but not too smooth...**

Our pavers are comfortable to walk on, but not too slippery, dry or wet.

♦ **Some exercising is fun, but exercising to clean your deck isn't ...**

That's why we manufacture our pavers to require very little maintenance. Because of additives and the high density of our pavers, algae, mildew and other yucky stuff have a difficult time growing on our product. Many natural and man made products require sealing to avoid the yucky stuff, we don't.

♦ **Salt pools, no problem...**

Again, because our pavers are so dense, salt water from pools that use chlorinators will not damage our decking.

♦ **Save your precious toes ...**

Our pavers are designed for commercial and residential pedestrian traffic. By calibrating and beveling the border of our pavers it keeps you from stubbing those precious little toes.

♦ **Lickety-split ...**

While you're sleeping, we're probably making pavers. Our standard pavers are usually ready for quick delivery. Installation is quicker than installing a concrete slab with a topping, because our pavers don't require a slab and paver installations are less affected by bad weather.

♦ **It is great to be special ...**

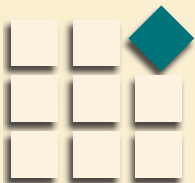

We make many different types of coping. Bullnosed on one, two, three or all four sides of the paver. By using our coping, you are able to have a spa or raised wall without having a seam going through the middle of the coping.

♦ **Great in cold weather...**

Our product passed the rigorous 50 cycle freeze-thaw test with no measurable weight loss or cracking.

♦ **We hate to call ourselves cheap, but we are very fairly priced ...**

Our pavers and coping add so much to the look of your backyard environment, are so functional, and will last so long, that you would think we cost a bunch. We don't, we are less costly than many materials that require slabs and a little more than some, but well worth it.
